What are the weakest areas of accessibility you're looking to test?	What is the surface area of the product or surface?	What areas of your surface can be testing with automated accessibility test?	What areas the automated tests couldn't test, will people verify?	What are the weakest areas of accessibility you're looking to test? Who do you need to help you test?	What are the weakest areas of accessibility you're looking to test? How often?
What tests will do you? How will you test? Method, standards?	How will you test it's working and available online?	What tests will do you? How will you test? Method, standards?	What tests will do you? How will you test? Method, standards?	What tests will do you? How will you test? Method, standards?	What tests will do you? How will you test? Method, standards?
What did you learn? What wasn't accessible?	What did you learn? What wasn't accessible?	What did you learn? What wasn't accessible?	What did you learn? What wasn't accessible?	What did you learn? What wasn't accessible?	What did you learn? What wasn't accessible?
What did you do to correct it?	What did you do to correct it?	What did you do to correct it?	What did you do to correct it?	What did you do to correct it?	What did you do to correct it?
